## SUGGESTIONS

BY THE BOUDOIR DIVAS

1.

Decide how sexy you want your shoot to be. Most of our clients do one casual set (think dress or jeans & a tee) and one sexy set (bra & panties).

Love sweaters! We have a few here, but if you have a fave please bring it.

If you're going for sexy, bring a bra and panty set or a babydoll. We have some here but want you to be sure to love your outfit.

Also love the long flowy dresses for a more casual look.

Do you want baby daddy in shots?  
If so package 2 is necessary

Now on to planning your looks!  
We have some ideas for you below....

We are crazy about the open jeans look. Maybe bring a pair of your fav jeans even if you can zip them up.

Guys look great in just jeans & a tee. If you think they are brave enough, talk to them about maybe taking some shots with their shirt off n let us know. ;)

Do you have any fav toys or booties? If this strikes your fancy, bring 'em along!

But whatever you choose, always...

- \* Wear loose fitting clothes to your shoot to avoid red marks that are visible in the photos.
- \* At the very least, bring a few pairs of panties and bras that we can pair with our wardrobe.
- \* Don't bring the kitchen sink ;) We welcome variety, if you know what direction you want to go in, but for your sake we don't want half the shoot spent weeding through maybe items. Remember it's just one outfit per set, with a variation. For example, a bra panty set can be varied by removing the bra. Or you can booties to the shot. but don't go hog wild.
- \* This is your shoot, we welcome any ideas you may have!
